THE STORY OF ST. VALENTINE

Saint Valentine was a Bishop during the Roman Empire.

Serving during the period of Emperor Claudius II.

Emperor Claudius believed that young men during these times better served as soldiers when they were unmarried, so he outlawed marriage all together.

Valentine, realizing this unjust act secretly married numerous young men and women during this time.

On February 14th the Emperor's soldiers discovered what Valentine was up to, and the emperor sentenced him to death.

From prison he sent a letter to his followers expressing his love and appreciation they showed him and he signed it
from your Valentine...

The expression has since been carried down through the ages.

HAPPY VALENTINE'S DAY
